**Subject:** Re: FAX concerning the Phillips and Berry prop.

Hi: it was my understanding that Jim Phillips needed a letter that could be sent to the City of Bothell, explaining the consequences of their failure to act on Mr. Phillips' rezone. John Wallace said that he submitted it to the City long ago, yet they failed to act on it, even after the City was ordered by the GMA Board to do so (or maybe the GMA Board only told the City that it needed to amend its development regulations to provide for urban densities of at least 4 dwelling units per acre).

I told John that I would need a chronology of the pertinent events to be able to draft such a letter. I received your fax, which only provides me with information about the wetlands.

Please have someone provide me with a chronology of events. I need the date Mr. Phillips submitted his application to the City, together with any information he has about the City's action on it. For instance, it would be helpful to me if he could provide me with anything the City told him (or gave him in writing) about their refusal or delay of his application, whether the City acted on other applications at the same time, etc.

If I have misunderstood what Mr. Phillips needs, please have him call me. I will probably have to leave by 1:00 today, but my phone number is 360-830-0328. Thank you.

**Subject:** FAX concerning the Phillips and Berry prop.

Hi

Just a quick email to let you know that a fax with information regarding the Phillips and Berry properties of Bothell WA has been sent.

Thanks very much,

Tom
