Subject: Re: Fitzgerald Zoning

Tom -

The Council took a preliminary vote on the Fitzgerald subarea and decided to keep it R1 east of North Creek, due to the extensive and high quality wetlands and streams in the area. Final action on the 2004 Plan Update is expected December 27.

The Council did not consider any property-owner-initiated amendment requests such as yours this year, opting to defer those to next year. On December 6 the Council will have a prioritization session to determine when next year all those requests will be heard.

 Hi

I'm perusing the City of Bothell web site for information on any decisions that have been made regarding the Comprehensive Plan and zoning in our area – the 23000 block of 39th S.E. (dead-end 39th)

I not able to find specifics. Would it be possible to get a link or a quick update on any dates when decisions are planned to be made.

Or could you possibly direct me to someone who could help me. I appreciate any help.

Regards, Tom
